

Charlotte Web Design and Hosting

We are pleased to announce the Go-Live of the new Dermatology Group of the Carolinas' [web site](#)!

The DermGroup was looking for a fresh new look to their existing site with some added functionality. Our fantastic graphic designers created a beautiful web site design that creates an inviting environment coupled with ease of use. The website features a slideshow which can be customized to display various slides where each link to associated content inside the site.

This site also includes a very attractive dropdown

appointment request form

. This form is built on jquery as opposed to flash so it works on all devices including iOS.

Another feature included in this new website is a

testimonials

component. Visitors can read existing testimonials as well as submit their own. When a user submits the testimonial, a notification is sent to the web site administrator allowing them to approve the message before being published on the website. Another great feature is the latest news component found at the bottom of the home page. This area is automatically updated as new content is added showing the most recent news and events first. This provides an easy way to communicate with visitors about upcoming news and events.

Welcome Dermatology Group of the Carolinas!

Monday, 10 December 2012 20:22 - Last Updated Friday, 13 September 2013 14:51

In addition to STB Web Services providing [professional web design and development](#) , Dermgroup is also utilizing our

[Green Hosting Services](#)
